

State of California  
AIR RESOURCES BOARD

Executive Order G-70-208

Modification of Enhanced Vapor Recovery Operative Dates relating to the Finding that  
In-Station Diagnostics for EVR Vapor Recovery Systems  
Is not Commercially Available

WHEREAS, the Air Resources Board (ARB or Board) has adopted Enhanced Vapor Recovery (EVR) regulations for certification and testing of vapor recovery systems installed at gasoline dispensing facilities (service stations and similar facilities), as set forth in 94010-94015, and 94148-94167, title 17, California Code of Regulations (CCR), and the documents incorporated by reference therein;

WHEREAS, Certification Procedure CP-201, Certification Procedure of Vapor Recovery Systems of Dispensing Facilities (CP-201) is among the documents incorporated by reference into title 17, CCR, section 94011;

WHEREAS, section 19.2 of CP-201 provides for installation of systems with terminated certifications when certified systems meeting the applicable standards and specifications are not commercially available by the operative dates specified in Table 2-1 of CP-201;

WHEREAS, section 19.2.1 allows the Executive Officer to change the operative and effective dates of new performance standards and specifications by renewing the certification for systems with terminated certifications with a maximum renewal period of six months;

WHEREAS, the Executive Officer approved extension of the operative date relating to In-Station Diagnostics to August 1, 2005 for facilities with gasoline throughputs greater than 1.8 million gallons/year in Executive Order G-70-207.

WHEREAS, vapor recovery systems meeting EVR Phase II standards and specifications including In-Station Diagnostics will not be certified by August 1, 2005 and thus will not be commercially available;

WHEREAS, a vapor recovery system that includes In-Station Diagnostics is now anticipated to be certified by September 1, 2005;

IT IS ORDERED, that certified EVR Phase II vapor recovery systems without In-Station Diagnostics may continue to be installed until September 1, 2005.

Executed at Sacramento, California this 1 day of August 2005.
